Intern, Laravel Department Alright Tech (SMC-Pvt) Ltd,
Near Shamsabad Metro Station, Rawalpindi, Punjab
September 1, 2023 - December 20, 2023

FRIENDBOOK SOCIAL NETWORKING
2023

My final year project encompasses an online platform where users can register, log in, manage profiles, create posts, view others' posts, and interact via friend requests and messaging. Additionally, I designed an admin dashboard for monitoring and addressing reported accounts and posts.

LAWYER CASE MANAGEMENT
2023

The Lawyer Case Management System is like a super-organized helper for lawyers. It's made for Ubaid Ullah Khattak, who wanted a way to keep track of cases easily. This system makes it smooth to manage cases, clients, and all the legal stuff, so lawyers can do their job better.

ACADEMY MANAGEMENT SYSTEM

2023

As a backend developer for an Academy Management System, I designed and implemented features like online course enrollment, teacher and class management, and financial transactions. I ensured system security, optimized database performance, and collaborated with the front-end team for UI integration.
